

NEPAL SCHOOL CHARITY PROJECTS 2019

BY SVEN CARLIN AND #SELINAINNEPAL

Project 1 : Building school toilets and refurbishing classrooms

Beneficiary : Shree Gyandhan Primary School

SCHOOL : Shree Gyandhan Primary School

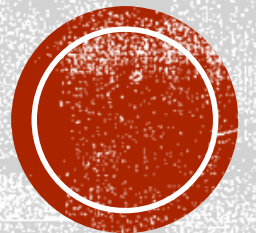

ADDRESS : Kaule Gelu – 6, Ramechhap Manthali, Nepal

LOCATION : 152 km (about 7 hours' drive) from Kathmandu

NO. OF STUDENTS & TEACHERS : 57 students; 5 teachers

NEEDS:

- Toilet facilities with proper sewage system
- Proper classroom furniture and fittings

THE PROJECT

- **Build toilets with two cubicles, complete with septic tank and proper sewage system** to ensure waste is disposed in the right manner. Proper waste disposal can help prevent water-borne diseases amongst children and villagers. The toilets will be made of cement, sand, iron and bricks.
- **Outfit the classrooms with good quality furniture and flooring** so that the younger children can have a more conducive learning environment. Items required are benches, low round tables, carpets and floor mats.

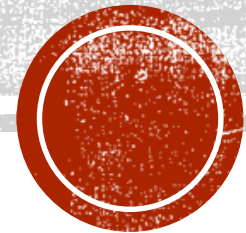

Dysfunctional toilets. Students and teachers no longer use them and opt to answer nature's call outside or go back to their own homes a distance away.

Basic classroom environment without proper furniture and flooring

BEFORE

Workers building toilet cubicles with proper piping and septic tank

Worker laying foam mats and carpet on the floor before placing low tables in a classroom for younger children.

**IN
PROGRESS**

Two new toilet cubicles complete with water tank and connected to proper sewage system

PROJECT COMPLETED - TOILETS

Younger children can now enjoy padded flooring for greater comfort and warmth during winter.

New table benches for the older children on padded flooring.

**PROJECT COMPLETED — CLASSROOM
FURNITURE AND FLOORING**

NO.	NEEDS	QUANTITY	COST (NPR)
1	Building of toilet cubicles with proper sewage system and septic tank	2 cubicles	167,130
2	Outfitting classrooms with furniture and flooring		133,150
3	Transportation of goods into village		45,500
4	Labour cost		102,600
